

Partnership meetings

Place		Date	Partners attending	Purpose of the meeting	Key results (summary of the minutes)
Country	Town				
SK	Bratislava	Nov 7-10, 2002	CUB SK, ELTE HU, Logotron UK, OEliZK PL, CNO PT	Kick-off meeting and workshop	<ul style="list-style-type: none"> - Negotiating on basic agreements for project. - Agreement has been made on contract details. - Disseminated 'know-how' between partners for developing tools in Imagine in a standardised way, which shall be provided by Slovak partners, who are the developers of Imagine authoring tool.
PL	Warsaw	Jan 23-25, 2003	CUB SK, ELTE HU, Logotron UK, OEliZK PL, CNO PT	Defining final plan for activities and workshop	<ul style="list-style-type: none"> - Partners presented plans and extensive discussions took part on implementation possibilities. An agreement was reached for all plans. - Sugestions were made for differnt portal platforms to be used. - Distribution of work for Fraction development has been agreed. - Agree on presentation and logo of project. - Disseminated 'know-how' between partners for developing tools in Imagine.
HU	Budapest	Feb 28, 2003	CUB SK, ELTE HU, Logotron UK	Dedicated to discussion on Fractions: First concepts of the Fractions microworld discussed, other implementations demonstrated and evaluated.	Fractions: - the microworld should be an open authoring environment able to serve as a building set for different approaches
HU	Budapest	March 14, 2003	CUB SK, ELTE HU	Dedicated to discussion on Fractions: First subset of representations already implemented. Their features discussed, many suggestions collected.	Fractions: - first attempts on the environment must be developed and discussed - pie and box representations must be completed
SK	Bratislava	July 3, 2003	CUB SK, ELTE HU	Dedicated to discussion on Fractions: Some objects must serve as the „input values“, others as „dependant, or „output values“.	Fractions: - the set should contain different representations with different visual means for specifying the actual values - we also need a kind of generators for generating random sequences of values
PT	Porto, Coimbra	Aug 21 – Sept 2, 2003	CUB SK, ELTE HU, Logotron UK, OEliZK PL, CNO PT, Brazil	Attending and presenting at Eurologo conference, discussion of redesign of products	<ul style="list-style-type: none"> - All partners have presented their results at conference. - Evaluation of results using products. - Agreements or redesign of products.

HU	Budapest	Sept 24, 2003	CUB SK, ELTE HU, Logotron UK	Dedicated to discussion on Fractions: What does it mean „to save an activity“? What does an activity consist of? The set of representations extended.	Fractions: - saving should be flexible, quick and simple - children must intuitively understand it - each object should have an option to allow or prevent dragging
SK	Bratislava	Nov 17, 2003	CUB SK, ELTE HU	Dedicated to discussion on Fractions: Fractions must be represented also as real objects (trains, ...) The idea of a sequence of activities and how to implement it.	Fractions: - the idea of picture fractions - the idea of Yes-No objects - painting tools for free-hand drawing should be added
UK	London, Cambridge	Jan 10 – 12, 2004	CUB SK, ELTE HU, Logotron UK, OEliZK PL, CNO PT	Overview of educational products, overview of project status and progress needed	- Visiting BETT to get an overview of present innovative products in the field and market survey for CoLabs outputs. - Rescheduling of work for Polish partners, who were behind schedule. - Agreements were made on evaluation activities. - Disseminated ‘know-how’ between partners for developing tools in Imagine.
HU	Budapest	March 26 – 27, 2004	CUB SK, ELTE HU, Logotron UK	Dedicated to discussion on Fractions: Number line implemented. Other values (fractions, objects) can be placed onto the number line. The clown will evaluate the results.	Fractions: - we need two alternative sizes of all control panels, icons, tools etc. This must be implemented through two independent helping files - objects should be resizable easily
DK	Billund	May 5-6, 2004	CUB SK, ELTE HU, CNO PT	Discussion for possibility of emerging project with LEGO DK as project continuation	- Products were presented and discussions were made on possible meeting points. - Further negotiations were planned for later stage.
SK	Bratislava	May 20, 2004	CUB SK, ELTE HU	The set of representations is completed. Many internal experiments being built by ELTE-HU and CUB-SK. Generators must be more general.	- installation program discussed - balloons can be free and attached to a number line - regions should have more conditions as options to be chosen from
HU	Budapest	June 28 – July 3	CUB SK, ELTE HU, OEliZK PL, CNO PT, Brasil	Attending and presenting at IFIP conference, discussion of fine-tuning of deliverables	- Investigating the status of all deliverables (some out of schedule). - Decisions were made for delivery of fine-tuned products. - Agreement for dates of payment for partnership contributions, but it depends on delivery of all outputs.
UK	London	Jan 13-16, 2005	CUB SK, ELTE HU, Logotron UK, OEliZK PL, CNO PT	Closing meeting	- Final agreements were made concerning the deliverables of Polish group which was behind in schedule. - Final agreements were made concerning the production of reports and submission of all deliverables.

Financial Agreement number:

101301-CP-1-2002-1-HU-MINERVA-M
